

THE MG1300 ALL IN ONE MAGNETIC LOCK SYSTEM

The MG1300™ is a heavy duty "all-in-one" magnetic lock system for outdoor applications. It is equipped with a junction box that has knockouts on four sides and an attached welding bracket for fast and simple installation on any location. The armature, also connected to a steel mounting plate, pivots to compensate for uneven installation and allows for the strongest possible connection with the lock. The MG 1300™ is simply the best choice for fast and reliable magnetic lock installation.

- constructed with heavy-duty stainless steel and sheet metal
- steel armature and mounting plates
- designed for outdoor face or side mounting
- fast and simple installation
- 12 volt or 24 volt DC power
- shipping weight 18 lbs.

FOUR WAY JUNCTION BOX

The Elite MG1300™ is equipped with a four way junction box that allows wiring from any side. This makes installation simple on any location.

THREE YEAR WARRANTY

Elite Access Systems, Inc., warrants the MG1300™ magnetic lock system to be free of defects in workmanship and function for a period of three years from the date of purchase.
